ULTIMATE HYDRATION

IV Infusion Therapy

Now available in
Vicksburg, MS!

What is IV Infusion Therapy?

IV Infusion Therapy is a way of giving fluids, vitamins, minerals, or medications directly into your bloodstream through a small IV in your arm. **This system ensures 100% bioavailable absorption**, providing a surge of nutrients and deep systemic repair that traditional supplements simply cannot achieve. Infusion sessions last 45 - 60 minutes and **most patients use this time to relax, read, or enjoy a few quiet moments to themselves** in our private IV Infusion suite at Holy River Health.

How can IV Therapy benefit me?

In today's world, many of us lead hectic, busy lives or suffer from health conditions or environmental toxins and pollutants that deplete us. Additionally, our modern diets leave many of us nutritionally deficient and unable to benefit from the bounty of vitamins and minerals in natural, wholesome food.

IV Infusion Therapy or "**Vitamin Drip**" Therapy can help hydrate, replenish, restore, and rebalance our systems.

What types of Infusions do you offer?

We're excited to offer a variety of pharmaceutical grade infusions ranging from **normal saline** for rehydrating your body after illness or exertion, to **expertly-tailored vitamin and mineral blends** to help you achieve your wellness goals.

You can book your Infusion Session online at [HolyRiverHealth.com](https://www.HolyRiverHealth.com) or call 601.738.5075. Dr. Mizell and his skilled healthcare team look forward to helping you achieve optimal health and vitality!

Pure Hydration | \$125

The foundation of rapid revitalization, this isotonic infusion provides direct-to-bloodstream hydration to restore electrolyte balance, support organ function, and efficiently detoxify the system.

For immediate relief from severe dehydration, hangovers, or illness requiring a pure systemic flush.

.9% NaCl

Metabolic Sculpt | \$145

Precision-engineered for the metabolic sculpt, this high-performance blend accelerates fat metabolism and enhances mental clarity to support your physique and vitality during periods of active weight loss.

For those in a calorie deficit, those with a sluggish metabolism, or anyone starting a new workout regimen.

B Vitamin Complex, L-Taurine (Amino Acid), & Methylcobalamin (Bioactive B-12)

Myer's Cocktail | \$195

The gold standard of intravenous wellness, this time-honored protocol delivers a high-concentration surge of nutraceuticals to silence chronic pain, correct deep-seated deficiencies, and provide a sophisticated total-body reset.

For individuals aged 35+, those managing chronic migraines, pain, or fibromyalgia, and anyone seeking to neutralize systemic inflammation.

Magnesium Chloride, B Vitamin Complex, Hydroxocobalamin (B12), Calcium Gluconate, Ascorbic Acid

Immunity Shield | \$145

An elite immune fortification, this concentrated shield of Vitamin C and Zinc optimizes your natural defenses to provide rapid revitalization and recovery from the demands of travel, illness, and stress.

For frequent commuters/travelers, individuals under high stress, and those recovering from surgery or fee "under the weather."

Ascorbic Acid, B Vitamin Complex, & Zinc Sulfate (Essential Nutrient)

Timeless Glow | \$155

A regenerative beauty experience, this anti-aging, free-radical fighting formula utilizes potent antioxidants like NAC to hydrate the skin, stabilize DNA structure, and recharge your energy at the mitochondrial level.

For frequent travelers, those aged 30+ noticing early signs of aging, and individuals seeking a luminous glow and diminished fine lines for dehydrated skin.

N-Acetylcysteine (NAC), Hydroxocobalamin (B12), B Vitamin Complex, Magnesium Chloride (Mineral Compound)

Recover & Revive | \$155

Designed for the active individual, this advanced formula floods your system with essential amino acids to decrease downtime, fuel muscle regeneration, and give you a definitive competitive edge.

For athletes training for peak output, active individuals recovering from injury, and those looking to decrease physical downtime and speed healing.

Ascorbic Acid, B Vitamin Complex, Amino Blend, Mineral Blend

PREMIUM ADD-ONS

ALA (Alpha-Lipoic Acid) | \$49

A potent antioxidant that improves insulin sensitivity, reduces nerve pain, combats inflammation, and supports cellular energy production throughout the body.

MICC (IM Injection) | \$39

A lipotropic injection blending methionine, inositol, choline, and B12 to boost metabolism, support liver detoxification, and enhance fat-burning for weight loss.

Glutathione | \$39

The body's "master antioxidant," a tripeptide produced in cells that neutralizes free radicals, supports liver detoxification, and bolsters immune function.

NAD+ (IM Injection) | \$65

An essential enzyme (Nicotinamide Adenine Dinucleotide) that boosts cellular energy, repairs DNA, improves cognitive focus, and promotes healthy aging.

Ondansetron | \$29

Often sold as Zofran, is a potent antiemetic medication that blocks serotonin to prevent nausea and vomiting.

Vitamin D3 (IM Injection) | \$39

Cholecalciferol, the "sunshine vitamin" essential for calcium absorption, maintaining strong bones, and supporting a healthy immune system.

Sinus Relief Acupressure | \$29

Eliminate sinus congestion and aggravation using tiny, painless press-tack needles in key pressure points around the eyes, nose, and forehead.

Initial Lab Draw & Quick Nurse Consult | \$39

For new patients and those who don't have labs readily available, this allows us to order labs and ensure a smooth, personalized, & safe infusion treatment.
